

Dear Nalani:

Aloha! I'm sorry to be so late to respond to your submittal of your hula narrative for the "Nana I Na Loea Hula" project. The story you rewrote relating your history of family traditions and hula source was excellent. We certainly would like to include that portion as part of your story. But please continue to tell us about your hula experiences as an olapa and as a kumu hula.

although the past is important, we would like to focus this story on you

We agreed that the past is very important, but we would also like to focus this story on you.
